BABAK HOSSEINKHALAJ
Professor of Electrical Engineering
Sharif University of Technology
Email: khalaj@sharif.edu

EDUCATION

Ph.D. in Electrical Engineering, *Stanford University*, Stanford, CA, June 1996.
M.S. in Electrical Engineering, *Stanford University*, Stanford, CA, April 1993.
B.S. in Electrical Engineering, *Sharif University of Technology,* Tehran, February 1989.

AREAS OF RESEARCH

- Next Generation Wireless Networks Analysis and Design (5G and Beyond)
- Cloud-Native SDN-NFV Platforms
- Learning and Big Data Analytics for Communication Networks
- Cloud Radio Access Networks (CRAN)
- Caching Algorithm Design and Analysis
- Analysis of Medical Networks for Cancer Diagnosis

EXPERIENCE

December, 1999 – Now
Professor of Electrical Engineering
Sharif University of Technology

July, 2018 – September, 2018
Nokia Visiting Professor Scholarship
University of Oulu, Oulu, Finland

August, 2015 – September, 2015
Erasmus-Mundus Visiting Professor
Technical University, Berlin, Germany

August, 2007 – September, 2008
Fellow of Alexander von Humboldt Foundation
Technical University of Darmstadt, Germany

September, 2006 – August, 2007
Visiting Professor
Communication Systems and Mathematical Principles of Information Group
CEIT (Centro de Estudios e Investigaciones Tecnicas de Gipuzkoa), San Sebastian, Spain

May, 1999 – August, 1999
Senior Design Eng. at Ikanos Communications, California
Simulation and design of burst-mode xDSL signal estimation and synchronization algorithms
Design and implementation of optimum multi-input multi-output NEXT/FEXT crosstalk and echo cancellation systems

November, 1996 – May, 1999

Sr. Member of Tech. Staff, Advanced R&D Dept., Advanced Fibre Communications, California
Design and implementation of broadband VDSL telecommunication systems
Modeling and simulation of xDSL systems and spectral compatibility studies
High speed DSP-based clock recovery and convolutional interleaving algorithms
Fast Reed-Solomon encoding and decoding techniques for DSP-based modems

June, 1995 - November, 1996
Sr. Algorithm Design Engineer at Corporate Technology Dept., KLA Instruments, California
Signal detection and estimation algorithms for inspection and analysis of difficult wafer layers using advanced imaging techniques; two dimensional defect classification and analysis

October, 1991 - June 1995
Research Assistant at Information Systems Lab., Stanford University, Stanford, California
Supervisor: Prof. Thomas Kailath
Research Topics: Antenna arrays technology for CDMA/TDMA cellular networks, multi-channel wireless channel estimation and modeling, modern signal processing techniques for inspection of patterned wafers, blind spatio-temporal channel identification, distortion compensation techniques for accurate overlay and lithography

June, 1993 - September 1993
Member of Tech. Staff at Digital Comm. Research Dept., AT&T Bell Labs, New Jersey
DSP-implementation of Cellular Digital Packet Data (CDPD) decoding algorithms
Design of high-capacity antenna array-based multi-user TDMA algorithms

PATENTS

US Patent 2017/0166963 A1: *"DNA Sequencing and Processing*", published June 15, 2017
US Patent # 6,668,041 B2: J. Kamali, B. H. Khalaj, *"Single Ended Line Probing in DSL System*", issued December 23, 2003
US Patent # 5,513,275: B. Khalaj, H. Aghajan, and T. Kailath, *"Automated Direct Patterned Wafer Inspection*", issued April 30, 1996

HONORS/SOCIETIES

- Recipient of 2018 Nokia Visiting Professor Scholarship at University of Oulu
- Recipient of 2015 EU Erasmus-Mundus Visiting Professorship at TU-Berlin
- Recipient of 2007-8 Alexander von Humboldt Fellowship
- Co-editor of Spectral Compatibility Std. for ANSI T1E1.4 Technical Subcommittee, 97-99
- Contributor to ANSI T1E1.4 ADSL Issue II Technical Document, September 1998
- TPC Member of IEEE ICC, Globecom, Infocomm and PIMRC
- Reviewer for IEEE Trans. on Vehicular Technology, IEEE Trans. on Wireless Communications, IEEE Trans. on Communications, and IEEE Trans. on Signal Processing
- Ranked 1st in the National Qualifying Exam for graduate studies abroad, 1990
- Ranked 3rd in the National Undergraduate Exam (out of 200,000 applicants)
