Assignment 1

- Study Nerson's paper on BON, and Hodge and Mock’s paper of 1992 (both available on the course webpage). Compare each of the two methodologies to the OMT methodology as to their process and modeling approach. Use the criteria introduced in Lecture 1 for this purpose.

- Study the general process of the OPM methodology, and compare the process of each of the following methodologies to OPM’s process (highlight the similarities and differences): Booch, Coad-Yourdon, Fusion, and OOSE.
