

Assignment 1

- Study Nerson's paper on BON, and Hodge and Mock's paper of 1992 (both available on the course webpage). Compare each of the two methodologies to the Fusion methodology as to their processes and modeling approaches. Use the criteria introduced in Lecture 1 for this purpose.
- Analyze the following methodologies based on the analysis criteria introduced in Lecture 1, and report the strengths and weaknesses thus highlighted: RDD, Booch, OMT, and OOSE. You can refer to the following report for further information on these methodologies:
