Topics highlighted in blue can potentially lead to novel results. Resulting high-quality papers will be earmarked for submission to international conferences.

The number in parentheses shows the default size of the research team for each topic.

2. Agile Software Process Improvement: Survey (1)
3. Software Process Evolution: Survey (1)
4. PSP/TSP Methodologies: Survey and Evaluation (1)
5. Microsoft Solutions Framework (MSF) and Kanban Methodologies: Survey and Evaluation (1)
8. Methodologies for Developing Self-Adaptive Systems: Survey and Analysis (2)
9. Methodologies for Developing Knowledge Management Systems: Survey and Analysis (2)
10. Methodologies for Developing Critical Software Systems: Survey and Analysis (2)
11. Methodologies for Developing Embedded Software: Survey and Analysis (2)
12. Software Quality Assurance (SQA) in Agile Software Development: Survey and Analysis (2)
13. Agile Product Line Engineering: Survey and Analysis (2)
14. Model-Driven Requirements Engineering: Survey and Analysis (2)
15. Contracting in Agile Development Projects: Survey and Analysis (1)
