Assignment 2

- Study the slides which describe the FOOM methodology (Lecture 7). Compare the processes and modeling chains of FOOM and Fusion: Specify the similarities and differences, and point out the aspects in which one process is superior to the other.

- Which process units of the OPM methodology correspond to (i.e., are instances of) OPF Stages? For a list of the different subclasses of the Stage component class in OPF, refer to the official OPF webpage at: [http://www.opfro.org/Components/Stages/Stages.html](http://www.opfro.org/Components/Stages/Stages.html).
