Assignment 2

- Study the slides which describe the FOOM methodology (Lecture 7). Compare the processes and modeling chains of FOOM and OMT: Specify the similarities and differences, and point out the aspects in which one process is superior to the other.

- Which process units of the RUP and EUP methodologies correspond to (i.e., are instances of) OPF Activities? For a list of the different subclasses of the Activity class in OPF, refer to its official webpage at: http://www.opfro.org/Components/WorkUnits/Activities/Activities.html.
