

Assignment 1

- Study Nerson's paper on BON, and Hodge and Mock's paper of 1992 (both available on the course webpage). Compare each of the two methodologies to OMT as to their processes and modeling approaches. Use the criteria introduced in Lecture 1 for this purpose. You can refer to this [report](#) for further information on these methodologies.
- Study the general process of the OPM methodology, and compare the process of each of the following methodologies to OPM's process: Booch and OMT. Highlight the similarities and differences, and point out the aspects in which one process is superior to the other. You can refer to this [report](#) for further information on these methodologies.
